

Randl Partners Czech Ius Laboris member

Prague, 2. 3. 2011 – Randl Partners, attorneys at law, has become an exclusive member of the global alliance **Ius Laboris for the Czech Republic**. After a difficult selection procedure, which took several months, other Ius Laboris members around the world finally confirmed the acceptance of Randl Partners in the last week of February. Now, Randl Partners, Czech attorneys at law, belong to a global alliance of leading employment law practitioners across 43 countries.

Founding Partner of Randl Partners Nataša Randlová doesn't hesitate to show her pleasure at another success of her team in the world of law and says: *"It's an unbelievable experience and an evaluation of our work to make it through the selection procedure and be ranked among members of well-known Ius Laboris alliance. There were some moments when I didn't hope for success. The membership brings more international work experience and represents a huge contribution for our lawyers and clients. We have gained access to the broadest alliance of independent experts in employment law and we can now offer world-class employment law services to Czech clients."*

Law firms which have fulfilled the difficult membership requirements have access to the multiple resources and products offered by the Alliance. Many useful publications, bulletins and seminars take place for clients of member law firms. Membership in Ius Laboris allows us to manage any international employment law project and to help clients with their international employment law transactions, for example with the posting of employees abroad, transfer of business to another state, etc.

Founded in 2001 the **Ius Laboris** alliance is the first specialized network of law firms of its kind. This year the alliance celebrates 10 years of its existence. Ius Laboris contains more than 2,500 attorneys from law firms in 43 countries and offers comprehensive services in more than 100 states. Member law firms offer specialized legal advice and litigation assistance worldwide in all aspects of human resources: labour and employment law, discrimination, restructuring, pensions, immigration law, social security law, etc. For more information please visit www.iuslaboris.com.

Randl Partners is the only niche employment law firm in the Czech Republic. It provides companies and individuals with legal advice in employment law, collective bargaining and human resources. It is a place where clients find reliable and well-balanced legal advice at the highest level of expertise.
